

Natosha *and* Daniel

building our family

our lifestyle

We are both from Pennsylvania and we started dating in high school. Daniel joined the Marines and served five years after graduation while Natosha went to college and received her degree in Electronic Health Records. We married in 2010 and moved to North Carolina, where Daniel was stationed at the time. We loved living in the south but chose to move back to Pennsylvania to be closer to our families. We now live within 15 mins of most of Daniel's family and within two hours of most of Natosha's family. We enjoy hosting parties, picnics, and holiday get-togethers for our families quite often. We both love the outdoors and spending as much time doing outdoor things such as swimming, kayaking, boating, and taking our dogs for walks when we aren't working. We are looking forward to sharing these things with our future child.

our home + neighborhood

We live in a 3-bed, 2-bath older home with lots of charm. We live in a very small town and love how peaceful and quiet it is. We can sit on our front porch and watch all the neighborhood kids play or hang out on our back deck and watch the dogs run in our fenced yard. We have many family gatherings in our backyard and love to have campfires on nice summer evenings. We live in one of the best school districts and it's known for its good sports team and academics. The elementary school is within walking distance from our home. We may live in a small town but everything we need is within 15-20 minutes from us.

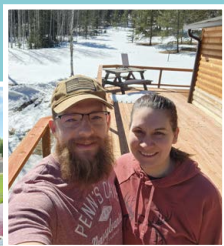

what we love about each other

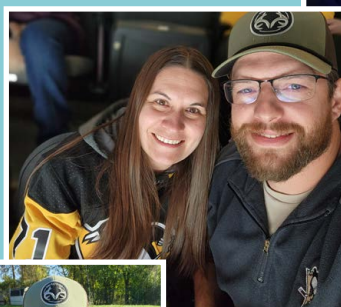

A note from Daniel: *Natosha is the most loving and thoughtful person I know. She loves to craft for the nieces/nephews' sports teams. She has been through 9 miscarriages and still finds a way to have a positive outlook on life. We've always dreamt of having children. I know she would make a great mother and couldn't ask for a better life partner.*

A note from Natosha: *Daniel is the love of my life. He is always willing to help and is very loyal and honest. He doesn't sugar coat anything and I love that about him. He is hardworking and takes on all my ideas from random projects to vacation/trips I plan. Daniel is great with children and anytime there is a baby he always is the first to want to hold them. He will be the most amazing dad when he gets the chance.*

DREAM VACATION Fiji, Australia

HOLIDAY Christmas

TV SHOW Any home makeover shows

SUBJECT IN SCHOOL Science

more about
Natosha

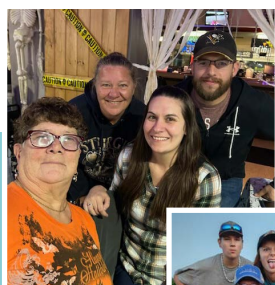

our family *and* friends

Daniel's family all live within 30 mins. Daniel's parents are happily married, and he has two brothers and twin sisters. We have a total of 11 nieces and nephews from his side of the family. We typically have dinner once a month but tend to get together much more often than that; Daniel's mom makes the best home-cooked food. All the kids enjoy getting together and playing games. Daniel's brother and his wife have three daughters and live a few houses down from us, we spend a lot of time together.

Natosha was raised by a single dad and has one brother. On Natosha's side we have two nephews, a niece, and a great-niece. Her older brother lives in Colorado and typically visit him and his family at least once a year. We always end up doing something new each time we are there. Most of Natosha's remaining family lives within 2hrs from our home. Natosha's family love to get together at our cottage on the lake to celebrate the Fourth of July, enjoy campfires, kayaking, boating and swimming. We occasionally ice fish on the lake when the lake freezes over. Both sides of our family get along very well and enjoy our cottage on a lake in the summer time.

our letter *to you*

Dear Expectant Mother,

It is an honor that you are considering us. We will be praying for your strength and peace during this time. We promise that your baby will always know how much you love them and that your decision is the most selfless and brave thing you could do for them. We will promise to raise your baby in a home full of love and support from not only us but our entire family. We promise to make sure your baby has all of their needs taken care of and that we show them that with a little hard work they can accomplish anything. We have loved each other for more than twenty years now, each year is better than the last. For some time we have been wanting to share that love with a child. Bringing them into our hearts and our home would be one of the biggest blessings in our lives. We understand this decision isn't easy and is probably one of the hardest you will ever make. We look forward to getting to know you and welcoming you into our family.

With love,

Natasha and Daniel
