OUR LIFESTYLE

We are both passionate about our nursing careers and love caring for people. Jace works on an acute care floor while Alison works in an orthopedic clinic. When we're not working, we love spending our free time with our family and friends. When we get together with family, we love to play card games, specifically pitch, and board games together. Alison loves cooking and baking and enjoys trying new recipes. Jace enjoys mowing and landscaping. Together, we like to go on walks or ride our bikes around our neighborhood. We love enjoying different experiences together, such as concerts, horse races, car races, and traveling to new places. We enjoy going to see our family and going on trips with friends. Our favorite time of the year is fall since that's when Nebraska football season starts. In Nebraska, the sporting events are a major event. We often attend gatherings to watch various sporting events such as football and volleyball. To unwind, we love to watch movies and do puzzles.

OUR HOME + NEIGHBORHOOD

We live in a rural town in Nebraska. We live in a quiet neighborhood with friendly neighbors who have children who play outside together. We have an open floor plan house with three bedrooms upstairs and two bonus rooms downstairs, with three and a half bathrooms throughout the house. Our finished basement is spacious and would be a great place for a playroom. We have a large, beautiful backyard with a patio where we enjoy sitting and entertaining next to our fire pit. We have a vegetable garden next to our house and enjoy tending to it. Our community has several schools and parks very close to our house. We have a dog, Maizy, who is fun-loving and always ready to play and cuddle.

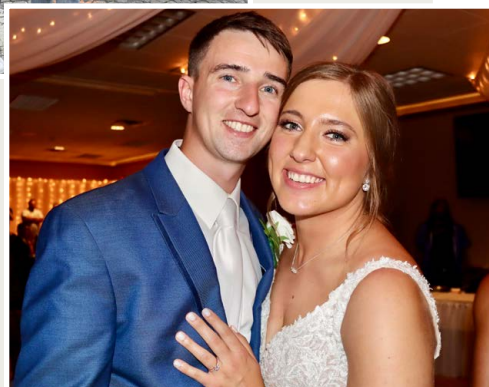

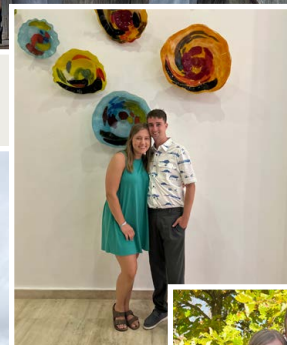

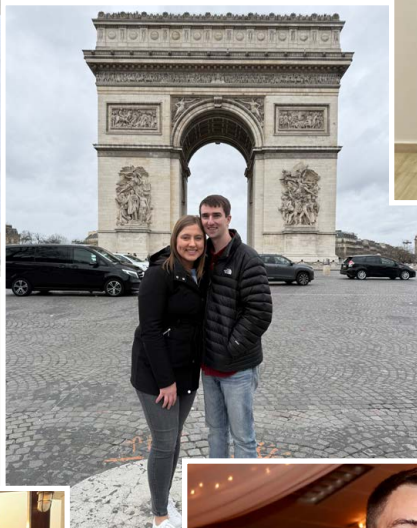

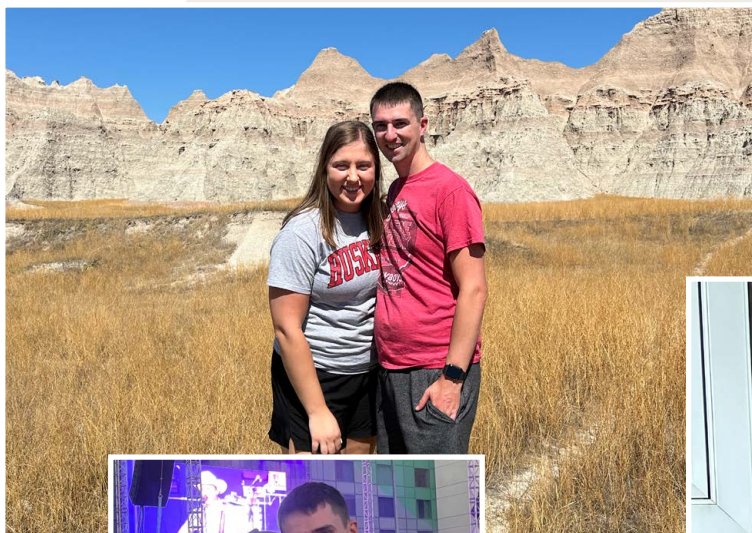

what we love about each other

Jace is a very supportive and patient husband. He is my biggest cheerleader in life and has always supported me in anything I want to do or try. He is very attentive and always takes the time to listen and understand. He is a friend to everyone he meets and has a heart of gold. He makes everyday activities fun, even doing the dishes.

Alison is a very organized and loving wife. She cares deeply for the people around her and tries to bring them joy. She has incredible strength and optimism that always brighten the darkest days. She makes life's unpredictable turns feel more like a fun adventure rather than a challenge.

OUR LIFE
together

more about **ALISON**

OCCUPATION: Registered Nurse

DREAM VACATION: Italy and Austria

HOLIDAY: Thanksgiving

TV SHOW: *Blacklist*

SUBJECT IN SCHOOL: Math and History

OUR FAMILY + *Friends*

Alison's parents live ten minutes away, and we often spend weekends with them playing cards and eating dinner together. Alison has an older brother and a younger sister and brother. Each of her siblings lives in different towns in Nebraska and they are a short drive away. Jace's parents live an hour and a half away, but we often visit for the weekend or they visit us. Jace has two younger brothers. One of his brothers lives down the road from his parents, and his other brother is in Thailand serving in the Peace Corps until March 2027. We both have large and supportive extended families with over twenty cousins between the two of us, many of whom have children of their own. Our holidays are spent traveling between each of our families to see as many family members as we can. We love spending time with our family and friends and creating memories with them. We both have a tight-knit group of friends that we've known for years, and they have been a great support system for us through the years.

OUR LETTER

to you

We are writing this letter with the deepest respect and admiration for the courageous decision you are considering. We learned that we cannot have biological children of our own, but we have both wanted children since before we met. After praying about it and talking with our friends and family, we felt called to grow our family through adoption. We had always talked about wanting to adopt after seeing the ways it has touched the lives of some people around us.

We can only imagine the mix of emotions you must be feeling as you navigate this journey and want to express our gratitude for considering us as potential adoptive parents. Your selflessness and love for your child are inspirational. We hope our profile gives you a glimpse into our lives and the kind of home we dream of providing.

If you choose us, we promise to provide your child with a loving, stable, and nurturing home. We envision a life filled with love, laughter, learning, and support. We want to encourage our children to dream big and help them pursue their goals. We will ensure that your child knows their story and understands the incredible love and sacrifice you made for them. We are eager to welcome a child into our lives and shower them with love and support.
